

# Another Satisfied ONEBurbank Customer!

**ONEBurbank** is a suite of BWP fiber optic services offered to Burbank businesses looking for exceptionally fast and reliable bandwidth. **ONEBurbank** rolled out in December 2010 and customers continue to sign up for the popular service.

Key Code Media, an industry leader in end-to-end turnkey professional video and broadcast systems, was founded by Mike Cavanagh in 2001. Pictured above is a mobile case Key Code Media designed for a client that live streams video game tournaments around the world.

Mr. Cavanagh shares his experience with BWP's ONEBurbank fiber service:

The future of production is dependent on bandwidth capacity. Whether you're non-linear editing remotely, or streaming live video, bandwidth has become a huge part of the puzzle. With our original internet provider, we experienced several internet "black outs." Switching to ONEBurbank gave us drastically faster speeds, stability for our daily operations, and has proven more reliable than any other connectivity solution we've used.

**"More reliable than any other connectivity solution we've used."**

**Mike Cavanagh**  
President & Founder  
Key Code Media

Based on the zero downtime we've experienced with ONEBurbank, we were able to move our servers on-site from a data center. Recently, we renegotiated a five-year lease for our Burbank corporate headquarters. A key reason and benefit to staying in Burbank is BWP's ONEBurbank service. With its fantastic fiber service, I'd say Key Code Media was undersold and ONEBurbank over-delivered!

Soon, Key Code Media will be launching cloud services. With special thanks to the ONEBurbank team, we're comfortable that we'll be able to deliver the best technical cloud services in the industry.

**We welcome Key Code Media as another satisfied ONEBurbank customer! Visit their website at [www.keycodemedia.com](http://www.keycodemedia.com) for more information.**
